MEMORANDUM

SUBJECT: Work Plan for Arkwood, Inc.

FROM: Ellen Greeney, Superfund Community Relations
State Programs Section (6H-SS)TO: Ruth Izraeli
Enforcement Section (6H-EE)

I have reviewed the community relations portion of the work plan submitted for the Arkwood site. I offer the following comments:

Page 2-148, Task 7, first paragraph.

EPA will conduct on-site discussions and provide a summary of those discussions to the McKesson Corporate public relations department. The community relations plan must be submitted to EPA for approval prior to the initiation of the RI field activities.

Pages 2-149, 2-150 and top of 2-151.

The paragraphs involving community relations techniques should be deleted from the work plan. These techniques are generic and can be described in the Community Relations Plan. However, the specific techniques will be modified to fit the needs of the community of Omaha. Implementation of the techniques listed on page 2-150 will require the approval of EPA prior to release. Again, these specifics will be outlined thoroughly in the Community Relations Plan.

If you have any questions, please call me at X9729.
